MSOE AT THE FAIR

In the scene above, Mr. John Faville, Jr., Coordinator of Specialized Training Programs at MSOE, is demonstrating one of the exhibits at the School's booth at the 1951 Wisconsin State Fair. The wide-eyed, pint-sized spectator is one of many who marveled at the operation of the electric train which obeyed spoken commands. Also at the MSOE exhibit was the School's amateur radio transmitter, W9HHX, which operated a radiogram message service for fair visitors.
